Kids in the Garden

IT'S THAT TIME AGAIN FOR FUN IN THE GARDEN!!

Come to our classes on gardening for children. Monday class times are 4pm to 5:30pm; Tuesday class times 9:30am to 11am. As we harvest our vegetables we will taste them and talk about how to use them. For each class we plan a hands on learning experience, a story about the gardening topic, and a snack and beverage.

****A parent or an adult is required to stay with children under 10 years of age.****

Monday & Tuesday, June 10th & 11th—Planting Our Garden and Construction of a Bug Condo!

We will be planting our seeds and plants and making labels for our spaces. We plan a story time and plenty of time to learn about the seeds and plants we planted. We will explore who our bug guest might be in our Bug Condo. Hummingbird feeders will be filled and put up and then we can watch Hummingbirds all summer.

Monday & Tuesday—June 24th & 25th—Composting We Go and Magical Hummingbirds!

We are starting our Compost Pile and learning about the magic of Hummingbirds! We will also plant beans and cucumbers and learn how to care for our little plants including weeding, and mulching them. We will install our garden scarecrow.

Monday & Tuesday—July 8th & 9th—Yoga in the Garden!

After we weed and harvest the vegetables that are ready, Yoga in the Garden will be our topic & activity to learn about.

Monday & Tuesday—July 22nd & 23rd—Marvelous Monarchs and Pollinators!

Monarch butterflies are today's topic. We will weed, harvest and taste the vegetables that are ready. We will learn about trying new foods.

Monday & Tuesday— August 5th & 6th—Apples, Apples, Apples and Painting Friendship Rocks!

Today we learn about Apples, and what lives inside some of them. We are going to paint Friendship Rocks. This is our final gathering before school starts.

To Pre-Register & for more information call the Spooner Agricultural Research Station @ 715-635-3506

Master Gardeners provide learning opportunities during the year—please check our website at northcountrygardeners.org

****In Case of Rain—we will meet at the Spooner Agricultural Research Station large meeting room****
